

RIMAGE 480i PRINTER

advancing the art of digital delivery.

VIVID COLOR, FAST THROUGHPUT, AND ASTONISHING RESOLUTION— RIGHT FROM YOUR DESKTOP

Rimage introduces the most advanced thermal inkjet technology available today. The Rimage 480i features the best speed, the best resolution, and the best color management. The smallest droplet size in the industry (3 pico-liters) and new six-ink color capacity give you stunning results—disc after disc. You'll get an astonishing 4800 dpi resolution and the full-color spectrum of 16.7 million colors. The Rimage 480i's specially formulated ink maximizes printing on all types of inkjet media, giving you a smooth, professional finish—flawless direct-to-disc printing every time. Best of all, the Rimage 480i is available as a cost-effective, stand-alone desktop unit.

PRINTING WITH SIX INK COLOR

Rimage's 480i desktop printer uses HP's unique PhotoREt IV color-layering technology and ColorSmart III color optimization technology to create realistic photo images, vivid color output, and extremely sharp text. PhotoREt IV achieves a greater range of colors, lighter tones, and smoother gradations, ensuring the best photo and image print quality.

In addition, the Rimage 480i offers the expanded Adobe RGB color space that preserves the original range of colors, allowing you to print a wider color spectrum.

RIMAGE 480i

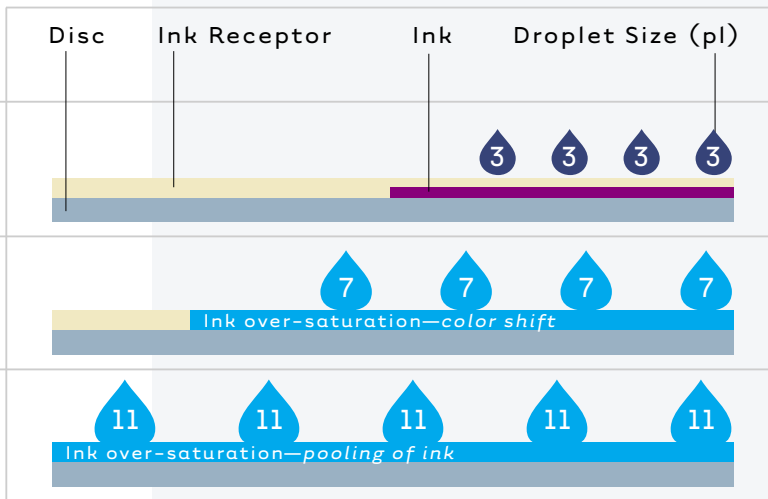

- World-class six-ink printing at your desktop
- Digital image adjusting for optimal results
- Smallest droplet for unsurpassed ink control
- Best inkjet photo, image and text quality

RIMAGE 480i PRINTER

BUILDING ON A QUALITY REPUTATION

The Rimage 480i desktop printer offers affordable, world-class performance—just what you'd expect from the industry leader in quality CD/DVD publishing solutions. Through constant innovation and exceptional engineering, we're committed to finding new and exciting ways to make your business more efficient.

The Rimage 480i print technology is standard in our family of Desktop Publishers. And it's easy to see why. Precision ink application means faster drying time and reduced dot gain. No more pooling, smudging or over-saturation, so you can print text and images perfectly. Highly controlled ink drop placement means faster operation and optimized color resolution. And the Rimage 480i features an attractive streamlined, integrated design. You can count on Rimage innovation and quality for professional results—right from your desktop.

THE RIMAGE 480i SETS A NEW STANDARD

The Rimage 480i's innovative thermal inkjet technology places smaller drops more accurately, giving you superb image and text quality project after project. The smaller droplet size translates to more printed discs per ink cartridge.
