

PC Trace Pro

Duplication System

Versatile Duplication Solution

- Automate your disk duplication using your PC and a Trace autoloader.
- Automate your disk duplication and label printing using your PC, a Trace autoloader, and the TIP 5300 printer.
- Automate any other disk handling operation with the Trace autoloader, TIP 5300 printer, and Trace software tools.

Duplication Features

- PC Trace Pro can automate the duplication process by formatting, copying, and verifying your disks in a single operation.
- PC Trace Pro is fast. It can format, copy, and verify up to 136 high density 3.5" disks per hour.
- PC Trace Pro duplicates all standard IBM 5.25" and 3.5" low, double, high, and extended density formats, the Macintosh high density format, and most UNIX formats.
- You can store disk images on your local hard drive or on any network drive using the industry standard TMF format.
- Job streaming allows you to automatically duplicate multiple masters in the same job.
- Batch mode allows you to save and duplicate "sets" of disks in a simple process.
- Any disk can be serialized during the duplication process.

SPECIFICATION CHART

PC Trace Pro				
Throughput	3.5" DD	3.5" HD	5.25" LD	5.25" HD
Standard Drive	30/hr	30/hr	N/A	38/hr
Double Speed Drive	62/hr	62/hr	62/hr	N/A
QualiCopy™ Drive	136/hr	136/hr	100/hr	84/hr
Trace AutoLoader	3.5" autoloader		5.25" autoloader	
Disk Capacity	20 or 100 disks		40 or 150 disks	
Dimensions	9.8x8.5x25 in (24.8x20.3x63.5 cm)		same	
Weight	54 lbs (24.5 kgs)		same	
TIP 5300				
Printing Accuracy	± 1/32 in			
Print Quality	360 dpi			
Print Cartridge	Cannon BD-01			
Size	42x17x11 in (106.6x43.2x27.9 cm)			
Weight	63 lbs (28.6 kgs)			

Superior Quality Control

- Automatic verification with advanced checksum algorithms ensures that every copy is an exact duplicate.
- A "QC" mode, or verify-only function, allows you to double check any number of disks against a master image.

Unique Applications

- PC Trace Pro supports Az-Tech's Everlock™ copy protection system allowing you to automate the application of copy protection to your disks.
- PC Trace Pro offers Virtual Mastering capability through the use of a RAM drive. This feature is useful for automating the production of unique disks or for constantly changing masters.

- PC Trace Pro provides the tools for automating the transfer of data from disk to computer and vice versa. The variety of applications are numerous and range from data collection to disk-based advertising.
- Every function can be controlled from the DOS command line. This makes it easy to write batch files or programs to customize PC Trace Pro for specific applications.

Trace AutoLoader

- Trace autoloaders have one of the lowest machine cycle times available.
- Your disks are handled with care. The Trace autoloader will not scratch or damage disks in any way.

- A self test of the entire autoloader and automatic jam clearing make the Trace autoloader a highly reliable and trouble free machine.

Trace In-Line Printer

- The TIP 5300 gives you the capability of printing text or graphics on the labels of duplicated disks as they exit the autoloader.
- With the TIP 5300, Trace autoloader, Batch Mode, and Serialization, you can automatically produce colored sets of disks with unique serial numbers printed on the labels.
